

To whomsoever it may concern,

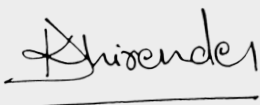

Mr. Tushar Kumar was an associate Research Engineering Intern at Balaji Infratech from 26 Jan 2021 to 28 Feb 2021. His responsibilities included Creating Annotated Image Dataset, and understanding and working on Object detection and classification models.

Tushar performed exceptional work that went beyond project requirements. He is motivated a self-starter and a quick learner. I was really pleased with his enthusiasm in taking on tasks that were new and challenging. His ability to communicate with product managers and other co-workers was outstanding. He completed all his assigned tasks in a professional and timely manner.

I wholeheartedly write this letter of recommendation for Mr. Tushar. Working with him has been rewarding. He is always willing and eager to help anyone and implement newer and more efficient solutions to programming problems. He advises the team and implements innovative ideas to meet project demands and various team objectives.

Tushar always demonstrates commitment in resolving issues and struggles for efficient solutions. He is a bright and ongoing young professional who enjoys working on new technologies. His attention to detail, style of programming, and understandability of core deep learning concepts are exceptional. He is reliable and a great team member and has the competency and experience needed as an upcoming research engineer.

Sincerely,

Mr. Dhirender,
Managing Director, Balaji Infratech.
